The Magic Message Formula

Use the proven framework below when crafting your outreach message to increase the likelihood of getting replies.

Authority: You show you know what you're talking about.

Reason: You provide a clear "why" behind the ask.

Scarcity: You limit the number of spots to show your time is valuable.

Soft Ask: You ask a low-pressure question that is easy to answer.

Sample Message Scripts

Below are sample message scripts you can use to start conversations and handle various responses.

Initial Outreach

*"Hey **NAME**, I've been learning AI tools that save business owners hours on admin work. I'm currently building up my portfolio of case studies, so I'm looking to do **3 Free AI Audits** this month for business owners. Do you know anyone?"*

How to Handle Replies

Scenario A: If they suggest someone

- "That's awesome! Could you introduce us via email or text? I'll take it from there."*

Scenario B: If they say 'I can't think of anyone right now'

- "No worries at all! If you stumble across anyone complaining about being buried in admin work or wasting time on repetitive stuff, keep me in mind. Appreciate you!"*

Scenario C: If they say, 'I actually need this!'

- "Haha, I didn't want to assume! I'd love to help you out. Let's jump on a quick 15-min call this week so I can learn more about what you're working on. Here's my calendar: [Calendly link]"*
